

Doc-2U

Real-time Universal Care from anywhere

World-class healthcare to any clinic from anywhere with Doc-2U, an integrated real-time platform with a range of medical devices (vitals, stethoscope ultrasound, dermascope, otoscope, 12-lead ECG, blood glucose and more), e-prescriptions, appointments, HL-7 support for EHR, SMS and email notifications sent to remote clinicians.

Make a difference, provide world-class healthcare to everybody, call or email us to arrange a demo.
